📍 İstanbul, Kartal   ○ Github

PROFILE

Dynamic and detail-oriented frontend developer with 14 months of hands-on experience in HTML, CSS, JavaScript, TypeScript and React.js. Passionate about creating visually appealing and user-friendly websites that meet client requirements. Seeking an opportunity to grow as a frontend developer and contribute to the success of a team-focused organization. Committed to continuously learning and staying up-to-date with industry developments.

EDUCATION

09.2017 – 01.2023
İstanbul

Yıldız Technical University
Bachelor of Engineering Civil

During my university years, I studied Civil Engineering and gained a solid foundation in mathematical and technical skills. However, I also developed a passion for software development and have been actively pursuing it by learning front-end development. My interest in software was sparked by a Matlab course I took in university, which introduced me to the exciting world of software and made me eager to learn more. With my strong technical background and proactive approach to learning, I am well-positioned to succeed as a software developer.

PROJECTS
